

Technology Training that Works

Handling Chemicals and Chemical Processes - Tips, Tricks and Tools

Contents

1	Introduction	1
1.1	Introduction to chemicals	1
1.2	Basics of chemical engineering and chemistry	2
1.3	Unit operations	3
1.4	Thermodynamics	8
1.5	Chemical kinetics	8
1.6	Chemical engineers – scope and responsibilities	8
1.7	The ten ‘greatest achievements’ of chemical engineering	14
1.8	Chemical engineering: ‘Today and Tomorrow’	15
1.9	Summary	16
	Quick quiz	17
2	Stoichiometry	19
2.1	Introduction	19
2.2	Understanding chemical formulas and equations	20
2.3	Balancing chemical equations	25
2.4	Chemical periodicity	27
2.5	Molecular weight	28
2.6	The mole and molar mass	29
2.7	Percent composition	29
2.8	Introduction to solutions	31
2.9	Units and dimensions	32
2.10	Process variables	36
2.11	Quick tips	39
2.12	Summary	40
	Quick quiz	42
3	Chemical Kinetics	45
3.1	Chemical reactions – basic concepts	45
3.2	Classification of chemical reactions	46
3.3	Chemical reaction profile	50

Technology Training that Works

3.4	Classification of reactors	51
3.5	Catalysts	56
3.6	Promoters	60
3.7	Efficiency criteria of a chemical process	62
3.8	Application of chemical kinetics in a resin-based water softener unit	62
3.9	Quick tips	63
3.10	Summary	64
	Quick quiz	65
4	Fluid Mechanics	67
4.1	Introduction	67
4.2	Volumetric properties of fluids	67
4.3	Measuring liquids	69
4.4	Mechanical pressure gauges	69
4.5	Measurement of fluid flow	73
4.6	Valves	74
4.7	Fluid moving machinery	82
4.8	Centrifugal pumps	83
4.9	Positive-displacement pumps	84
4.10	Agitation equipment	89
4.11	Quick tips	94
4.12	Summary	94
	Quick quiz	96
5	Heat Transfer and its Applications	99
5.1	Heat transfer mechanism	99
5.2	Heat exchangers	99
5.3	Boilers	109
5.4	Evaporators	113
5.5	Cooling towers	124
5.6	Quick tips	129
5.7	Summary	129
	Quick quiz	130
6	Mass Transfer and its Applications	131
6.1	Mass transfer phenomena	131
6.2	Distillation	131
6.3	Types of distillation	134
6.4	Sublimation	134

Technology Training that Works

6.5	Leaching	134
6.6	Centrifugal extractors	136
6.7	Gas absorption	136
6.8	Desiccant dehumidifiers	137
6.9	Adsorption systems	139
6.10	Drying	141
6.11	Drying Equipment	143
6.12	Quick tips	163
6.13	Summary	163
	Quick quiz	165
<hr/>		
7	Thermodynamics	167
<hr/>		
7.1	Principles of thermodynamics	167
7.2	Applications of thermodynamic principles	168
7.3	Compressor	170
7.4	Ejector system	177
7.5	Heat conversion and power cycles	178
7.6	Refrigeration and liquefaction	189
7.7	Quick tips	194
7.8	Summary	194
	Quick quiz	196
<hr/>		
8	Process Design	197
<hr/>		
8.1	Introduction	197
8.2	Process design considerations	198
8.3	Equipment design factors	198
8.4	A look at common industrial chemicals	199
8.5	Materials of construction	202
8.6	Types of corrosion	203
8.7	Linings for chemical plants and equipment	205
8.8	Rules of thumb	205
8.9	Quick tips	211
8.10	Summary	211
	Quick quiz	213
<hr/>		
9	Process Control	215
<hr/>		
9.1	Overview	215
9.2	Control system	215
9.3	Practical control examples	218
9.4	Control actions	225

Technology Training that Works

9.5	Examples of control	226
9.6	Control loop diagrams	233
9.7	Modes of automatic control	234
9.8	Quick tips	243
9.9	Summary	243
	Quick quiz	245
10	Chemical Process Safety	247
10.1	Safety responsibilities	247
10.2	Standard safety rules and regulations	248
10.3	Chemical hazards and chemical safety data sheets	250
10.4	General safety practices	254
10.5	Good housekeeping plan	263
10.6	Personal protective equipments	264
10.7	Quick tips	264
10.8	Summary	265
	Quick quiz	266
11	Classification of Process Diagrams/Data Sheets and their Application	269
11.1	Introduction	269
11.2	Types of process drawings	269
11.3	Block flow diagram (BFD)	270
11.4	Process flow diagram (PFD)	270
11.5	Piping and instrument diagram (P&ID)	272
11.6	Utility flow diagram (UFD)	272
11.7	Data sheets	273
11.8	Quick tips	273
11.9	Summary	273
	Quick quiz	274
12	Handling Particulate Solids	275
12.1	Storage of solids	275
12.2	Feeders	277
12.3	Crushers and mills	279
12.4	Cutting machines	284
12.5	Crystallization	285
12.6	Mixers	287
12.7	Mechanical separation	290
12.8	Powder compacting equipments	295

Technology Training that Works

12.9	Filtration	299
12.10	Cryogenic grinding	303
12.11	Blending	304
12.12	Quick tips	305
12.13	Summary	306
	Quick quiz	307
13	Safety, the Environment and the Chemical Industry	309
13.1	Introduction	309
13.2	The Bhopal chemical disaster	310
13.3	The long term effects of chemical pollution	318
13.4	Conclusion	321
Appendix A Periodic Table		323
Appendix B Fundamental Physical Constants		325
Appendix C Process Equipment Symbols		329
Appendix D Typical Instrumentation Representation		347
Appendix E Typical P&ID		373
Appendix F Typical Process Data Sheet		375
Bibliography		377
