# Rigid and Flexible Hose Connections

---

## Contents

|          |   |           |
|----------|---|-----------|
| <b>1</b> | <b>What Constitutes a Good Hose</b>                   | <b>1</b>  |
| 1.1      | Introduction  | 1         |
| 1.2      | Hose Design Principles                                | 2         |
| 1.3      | Common Hose types                                     | 5         |
| 1.4      | Rigid and Flexible Applications                       | 10        |
| <b>2</b> | <b>Classification and Type</b>                        | <b>11</b> |
| 2.1      | Introduction  | 11        |
| 2.2      | Classification based on the Medium                    | 11        |
| 2.3      | Classification based on the nature of application     | 14        |
| 2.4      | Classification based on the equipment type            | 17        |
| 2.5      | Classification based on pressure ratings              | 20        |
| <b>3</b> | <b>Hose Design and Construction</b>                   | <b>23</b> |
| 3.1      | Hose Requirements                                     | 23        |
| 3.2      | Hose selection and sizing                             | 24        |
| 3.3      | Pressure surges and drops                             | 26        |
| 3.4      | Pressure and Temperature ratings                      | 27        |
| 3.5      | Design considerations                                 | 28        |
| 3.6      | Safety factors  | 34        |
| 3.7      | Flow characteristics                                  | 35        |
| <b>4</b> | <b>Hose Fittings and Assembly</b>                     | <b>37</b> |
| 4.1      | Common Hose fittings, connectors, couplings, clamps   | 37        |
| 4.2      | Hose Fitting types                                    | 38        |
| 4.3      | Adapters  | 43        |
| 4.4      | Hose clamps   | 45        |
| 4.5      | General Hose Coupling Fitting Principles              | 47        |
| 4.6      | Quick disconnect couplings                            | 49        |
| 4.7      | Camlock couplings                                     | 50        |
| 4.8      | General Considerations Regarding Assembly and fitting | 51        |
| 4.9      | Hose Assembly   | 53        |
| 4.10     | Swaging and crimping procedures                       | 54        |
