# High Voltage Safety Operating Procedures for Engineers and Technicians

---

## Contents

---

<b>1</b>	<b>Basic Safety Requirements &amp; Procedures</b>	<b>1</b>
1.1	Introduction	1
1.2	International standards for safety	2
1.3	High voltage electrical hazards	3
1.4	Electric shock	4
1.5	Arc flash	9
1.6	Other hazards	25
1.7	Electrical accidents and safety measures	25
1.8	Basic safety requirements	27
1.8	Basic safety procedures	27
1.10	Electrical insulation	28
1.11	Insulation maintenance	30
1.12	Summary	30
	Appendix A: Dangers of Electricity	32
<b>2</b>	<b>Fundamentals of Power Systems and Isolation for HV Systems</b>	<b>37</b>
2.1	Introduction	37
2.2	Main components of an industrial distribution system	37
2.3	Voltage classification	39
2.4	Multiple voltage levels in power distribution	39
2.5	Faults in electrical systems	42
2.6	Short circuit currents	45
2.7	Bolted vs Arc fault currents	46
2.8	Earthing and its influence on electrical faults	46
2.9	System earthing	47
2.10	Influence of earthing on arc faults	50
2.11	Safety isolation	50
2.12	Emergency switching (typical regulation)	52
2.13	Testing of equipment (typical regulation)	53
<b>3</b>	<b>Earthing</b>	<b>59</b>
3.1	Earthing	59
3.2	Earthing arrangement families	60
3.3	Unearthed system	64
3.4	Properties of a safe earth connection	66
3.5	The dangers of inadequate earth connections	67
3.6	Dead and alive connections	68

*Technology Training that Works*

3.7	Making overhead line and apparatus accidentally alive	68
3.8	Livening by induction	70
3.9	Static charge	70
3.10	Residual voltage	71
3.11	Reasons for earth	71
3.12	Minimum earthing requirements (typical regulation)	71
3.13	Additional earths (typical regulation)	72
3.14	Work on lines	72
3.15	Procedure of work on a cable feeder (typical regulation)	73
3.16	Special provision for double circuit structures (typical regulation)	73
3.17	Summary	73
<hr/>		
<b>4</b>	<b>Live Chambers, Prohibited Areas and the Work Permit System</b>	<b>75</b>
<hr/>		
4.1	Live chamber	75
4.2	Locking of doors and gates (typical regulation)	75
4.3	Entry to live chambers or prohibited areas (typical regulation)	76
4.4	Procedure in order that other persons may gain access to live chambers (typical regulation)	76
4.5	Procedure in order that other persons may gain access to prohibited areas (typical regulation)	76
4.6	Keys to be kept in a box – substations (typical regulation)	77
4.7	Emergency access to key boxes at substations (typical regulation)	77
4.8	Responsibility of persons authorized to use keys (typical regulations)	77
4.9	Surrender or loss of keys (typical regulations)	78
4.10	Work permit system	78
4.11	The purpose of a work permit system	79
4.12	Circumstances when a work permit is required (typical regulation)	79
4.13	Forms in duplicate (typical regulation)	79
4.14	Application and Permit (typical regulation)	79
4.15	Implementation of work permit	80
4.16	Documenting and monitoring work permit systems	82
4.17	Closing work permits	82
4.18	Duration of a permit	83
4.19	Extending a work permit (typical regulation)	83
4.20	Cancellation of a work permit	83
4.20	Operative procedures	86
4.21	Summary	86
<hr/>		
<b>5</b>	<b>Safety Policies</b>	<b>87</b>
<hr/>		
5.1	Principles of safety rules	87
5.2	Operative training	88
5.3	Personnel levels of competency	89

*Technology Training that Works*

5.4	Accidents/Incidents	91
5.5	Safety documentation	94
5.6	Safety at switchgear and transformer premises	96
5.7	Safety with electrical control gear	97
5.8	Safety with switchboards	97
5.9	Handling of HV capacitor banks	102
5.10	Policies for operational and safety locking, safety notices and remote operation	102
5.11	Electrical machinery in hazardous locations	103
5.12	Electric fences	104
5.13	Earthing	106
5.14	Supports	107
5.15	Clearances of power lines	108
5.16	Insulators and fittings	110
5.17	Conductors	110
5.18	Overhead service connections and conductors	110
5.19	Bare conductors on premises	110
5.20	Management of electrical hazards	110
5.21	Work on live systems or close to live systems in electric substations	112
5.22	Switching schedules	113
5.23	Substation inspection checklist	116
5.24	Personal protective equipment (PPE)	117
5.25	Portable electric tools	119
5.26	Portable electric lights	121
5.27	Fire protection in substations	121
5.28	Summary	122
<hr/>		
<b>6</b>	<b>Typical Electrical Installation Regulations</b>	<b>123</b>
6.1	Responsibility for electrical installations	123
6.2	Certificate of compliance	125
6.3	Certificate of communications cabling specialist	127
6.4	Construction	128
6.5	Electrical contractor	128
6.6	Commencement of and permission to connect installation work	128
6.7	Issuing of a certificate of compliance	129
6.8	Inspection authorities	129
6.9	Appeals	129
6.10	Application for registration as an accredited person	130
6.11	Substitution of lost, damaged or destroyed certificates of registration	130
6.12	Summary	130

*Technology Training that Works*

<b>7</b>	<b>First Aid and Artificial Resuscitation</b>	<b>133</b>
7.1	Electric shock	133
7.2	Types of contact	134
7.3	Parameters deciding effects	136
7.4	Precautions to avoid electric shock	139
7.5	Burns from electricity	141
7.6	Rescue	141
7.7	Release from contact with live conductors	142
7.8	First aid at your work place	142
7.9	Resuscitation after contact with live conductors	143
7.10	External cardiac (heart) massage	148
7.11	Training and other requirements	150
7.12	Summary	150
<b>8</b>	<b>Abnormal Conditions</b>	<b>151</b>
8.1	Emergency Switching (typical regulation)	151
8.2	Testing of equipment (typical regulation)	152
8.3	Summary	155
<b>9</b>	<b>The Appointed Operator and the Responsible Person</b>	<b>157</b>
9.1	Operative procedures	157
9.2	Appointed operator	158
9.3	Duties and responsibilities of appointed operator	158
9.4	Responsible person	158
9.5	Supervision of work	159
9.6	Accidents/Incidents	160
9.7	Summary	163
<b>10</b>	<b>Lockout and Tagout Procedures</b>	<b>165</b>
10.1	Hazardous energy control	165
10.2	Lockout methods	166
10.3	Ensuring hazardous energy control	166
10.4	Lockout tagout program	167
10.5	Policies/procedures establishment	167
10.6	Safety representative's responsibilities	167
10.7	Common lockout devices	168
10.8	Summary	174
<b>Appendix A</b>	<b>Electricity Supply Authority Operating Regulations for High Voltage Systems applicable in Australia</b>	<b>175</b>
<b>Appendix B</b>	<b>Electricity Supply Authority Operating Regulations for High Voltage Systems applicable in South Africa</b>	<b>179</b>
<b>Appendix C</b>	<b>Electricity Supply Authority Operating Regulations for High Voltage Systems applicable in the UK</b>	<b>191</b>
